Total mileage is being collected to see how many the participants traveled. Take mileage for each day you travel whether you visit 1 or 20 cities. Enter mileage for each ride in the space provided. (See Examples)

Examples on how to figure your mileage:

Example 1: Check mileage when leaving your home. If you ride 10 miles from your home to Oregon City and ride back home, you would calculate and post that as a 20 mile trip.

Example 2: Check mileage when leaving your home. If you ride 10 miles from your home to Gladstone, then ride 2 miles to Oregon City and then another 10 miles home, your total miles traveled would be 22 miles. Post the entire 22 miles in the mileage column for ‘O’ and indicate Oregon City. Post OC (Oregon City) in the mileage column for Gladstone. Remember to also post the date in both cities visited.

Example 3: Check mileage when leaving your home. If you are on a road trip to Sturgis and you stop off at La Grande for the ‘L’ letter. The mileage from your home to La Grande is 250 miles. Post 500 miles assuming you made a round trip and returned home.

Lists of cities for Oregon and Washington will be available on the RCH Web page.
One photo of each participant will be placed in the RCH Web page photo album.

IT'S ALL ABOUT THE RIDE - Enjoy!
